

Want higher productivity? Get in the loop!

New machines or retrofits produce more and perform better with precise, synchronized closed-loop control. The RMC70 Series controls position and pressure in one- or two-axis motion applications. Now, with the

RMC75E Motion Controller

1- or
2-axis
servo
control

Ethernet
to PLC
and HMI

RMC75E, you get fast, deterministic Ethernet. Improve your productivity. Close the loop at deltamotion.com
